

# POW-R-RIP

Attachment  
Technologies  
Incorporated

# BRADCO®

## FEATURES & BENEFITS

- Attaches to universal hitch skid-steer loaders with up to 70 HP.
- Loosens compacted soil, rocks and frost in preparation for excavating or trenching.
- Swivel plate that allows ripper shank to swivel 360° for curves or when used in preparation for excavating or trenching.
- Can be locked in place for rigid tooth action in forward or reverse travel.
- Up to 18" ripping depth.
- Rips just as easy in reverse as it does when traveling forward.
- Rips through tree roots.
- Replaceable tooth.
- Three inch diameter pivot pin.
