

## High Dump Roll Out Buckets

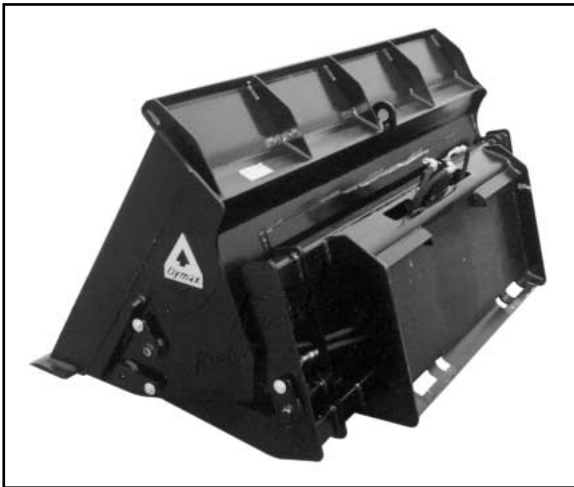

for Skid Steer and  
Small Wheel Loaders

- 
- **Dymax High Dump Roll Out Buckets** allow skid steer loaders to work in applications usually requiring larger loaders.
  - Designed for special applications requiring high dump clearances, **High Dump Roll Out Buckets** are ideal for loading trucks or hoppers.
  - Dump clearance is increased 40" over standard buckets.
  - Specifically designed for lighter materials where packing and sticking are not a problem, **Dymax High Dump Roll Out Buckets** are ideal in stockpile applications in such materials as woodchips, feed and grain.
  - The base cutting edge is drilled to accept bolt-on edges.
  - Additional machine hydraulics are required for the **Dymax High Dump Roll Out Bucket**.
-

## High Dump Roll Out Buckets

- **Dymax High Dump Roll Out Buckets** for skid steer loaders build upon years of Dymax experience building high quality **High Dump Roll Out Buckets** for large wheel loaders.
- The open design results in larger load and carry capabilities and significantly less spillage.
- All **Dymax attachments** for skid steer loaders are built with the same high quality standards as larger **Dymax attachments**, insuring that the attachments match increased horsepower and breakout forces of new, larger machines.
