TERRAIN & FINISHED
SURFACES.**

The Soft Bottom Track, for the Hard Core

Loegering's non-marring, high-performance skid-steer soft bottom tracks provide superior floatation, aggressive traction and cover a significant amount of surface area. Ideal for applications where skid steers need to work in adverse conditions while allowing operators to work on finished surfaces without damage.

Guaranteed Performance

- ◆ Allows operators to work on finished surfaces without any damage.

- ◆ More cost effective than rubber tracks.

- ◆ Extends tire life and easy on drive-train.

- ◆ Our V-shaped UV-stable pads are self-cleaning and provide a smooth ride and offer exceptional traction.

- ◆ Smooth-running double pivot design.

- ◆ Soft-bottom urethane is the most wear resistant pad bottom.

Loegering is the original skid steer track manufacturer and has been building tracks for 30 years. Count on Loegering for the quality and service you need when you want it.

Easy On Easy Off

Loegering Tracks attach quickly and easily with our customized installation tool. After initial installation Loegering's track system allows you to reinstall the tracks in under 30 minutes.

Great Value

Loegering Tracks are fully adjustable and rebuildable, making them the ultimate value. A new multiple hole link design provides numerous points where the track can be adjusted. Threaded "Dura Pins" are extremely durable, and feature a fool-proof design that allows the pins to be inserted only one way and locks them in place.
