

# Cat<sup>®</sup> Snow Blowers

SKID STEER LOADERS  
MULTI TERRAIN LOADERS

Cat<sup>®</sup> Snow Blowers are designed for removing snow from streets, parking lots, driveways and sidewalks, making them ideal for winter cleanup and maintenance applications.

#### FEATURES:

##### Two-stage design uses auger and impeller

- Two-stage design uses auger and impeller to move a greater capacity of snow quickly and efficiently. Also, a reversible auger and impeller allows operator to expel obstructions without exiting the machine.

##### Exclusive in-line impeller

- Exclusive in-line impeller draws in only as much snow as it can throw, providing the appropriate balance of speed and torque to maximize capacity and throwing distance.

##### Hydraulically controlled chute, auger, impeller and deflector

- Chute, auger, impeller and deflector provide easy adjustment, long life and less maintenance.

##### High flow models use machine joystick to control chute and deflector

- There are no additional wires or hardware to connect. Complete control with plug-n-play simplicity.

##### 180° chute rotation

- Rotation permits snow discharge to front or sides of machine preventing snow blow back on operator.

##### Non-binding rotating discharge chute

- Non-binding rotating discharge chute utilizes non-metallic liner to prevent plugging and freeze ups.

##### Smooth chute design

- Smooth chute design eliminates ledges to prevent bridging and plugging.

##### Nickel-plated corrosion-resistant chute chain

- Chute chain prevents chain rust that could negatively affect chain life and performance.

##### Bolt-on replaceable reversible cutting edge and large skid shoes

- Bolt-on replaceable reversible cutting edge and large skid shoes extends snow blower work tool life.

##### Hydraulic hard tubing lines

- Hydraulic hard tubing lines eliminate wear and damage.

##### Diverter manifold cover and wire sleeving

- Diverter manifold cover and wire sleeving protect components from damage.

##### Quick coupler

- Rugged, opposing edge design holds the work tool securely and allows the operator to quickly change from one high performance Cat Work Tool to another.

## Compatibility

Model	Machines
SR17	216B, 226B, 232B, 236B, 242B, 247B, 252B, 257B, 246C, 256C, 262C, 272C, 277C, 287C, 297C
SR18	216B, 226B, 232B, 236B, 242B, 247B, 252B, 257B, 246C, 256C, 262C, 272C, 277C, 287C, 297C
SR21	216B, 226B, 232B, 236B, 242B, 247B, 252B, 257B, 246C, 256C, 262C, 272C, 277C, 287C, 297C
SR318*	226B, 242B, 257B, 246C, 256C, 262C, 272C, 277C, 287C, 297C
SR321*	226B, 242B, 257B, 246C, 256C, 262C, 272C, 277C, 287C, 297C

\* Requires high flow and high flow XPS option on machine.
