

Watchguard Generator Service

Level

10

Watchguard Service is a Ziegler preventive maintenance and inspection program, custom designed to help reduce generator operating costs, prolong component life and increase the overall reliability of your equipment.

Level 10: Fire Suppression System Testing.

- Available for all brands and installations of fire suppression systems
- Includes a comprehensive inspection to assess the system's operational condition
- Meets the National Fire Protection Agency's (NFPA) 12 standards
- Recommended every 6 months or as required by Local Building Codes
