

# Watchguard Generator Service

Level

16

*Watchguard Service is a Ziegler preventive maintenance and inspection program, custom designed to help reduce generator operating costs, prolong component life and increase the overall reliability of your equipment.*

## Level 16: Preventive Maintenance for Portable Generators

- Inspect and test engine, generator, fuel tank, engine block heater, gauges and meters
  - Thoroughly check engine emergency shutdowns
  - Test oil and coolant for contamination
  - Conduct a 30 minute load bank performance test
  - Provide written analysis of the inspection and performance test including all recommended repairs
- 
- Recommended every 12 months
  - Service performed at Ziegler (Shakopee or Des Moines)
  - Customer responsible for generator delivery and pickup (for a charge, arrangements can be made to have your generator picked up)
