

WATCHGUARD GENERATOR SERVICE

Battery Replacement Program

Level 9

Watchguard Service offers a Battery Replacement Program to help protect your generator or fire pump engine from failure. Under this program, your electrical system is inspected at 24 to 36 month intervals.

- Completely check electrical system, making sure the battery charger is properly adjusted
- Check engine starter and amperage under normal operating conditions
- Remove and dispose of old **lead acid batteries** (per EPA standards)
- Install new **low antimony batteries** ... specifically designed for standby emergency generators and fire pump engines
- *Recommended every 24 to 36 months*

MINNESOTA

8050 County Road 101 East
Shakopee, MN 55379
952.445.4292 • 888.320.4292

IOWA

1500 Ziegler Drive NW
Altoona, IA 50009
515.957.3800 • 800.342.7002

Watchguard Service is a Ziegler preventive maintenance and inspection program, custom designed to help reduce generator operating costs, prolong component life, and increase the overall reliability of your equipment.
