- Position and draft control to make hooking up and operating 3-point implements easier
- Three-point lift control on both fenders
- Easy to access service points

Dyna 2 Transmission:

- Clutchless shifting of 24x24
- Powershuttle
- Speedmatching
- Brake to neutral
- Maintenance-free emissions systems

**4707 Emission System:**

Diesel Oxidation Catalyst (DOC) and Exhaust Gas Recirculation (EGR) eliminate the use of a Diesel Particulate Filter (DPF) or regeneration

4708-4710 Emission System:

Selective Catalytic Reduction (SCR) and a Diesel Oxidation Catalyst (DOC) eliminate the use of a Diesel Particulate Filter (DPF) or regeneration. The system uses variable DEF injection based on the load of the tractor. This allows for more efficient use of the DEF, saving money and refueling downtime.

Loaders

MF 931X w/ 84" Skid Steer Bucket: Non-self-leveling, lift capacity to full height at 31.5" forward of pivot pin: 2,140 lbs.

MF FL.3615 w/ 84" Skid Steer Bucket: Mechanical self leveling, lift capacity to full height at 31.5" forward of pivot pin: 3,420 lbs.
