P195 PATH PAVER

BUILT FOR PRODUCTION.

Engineered and built with versatility in mind, the Weiler P195 incorporates proven designs with new innovations to provide performance, reliability and outstanding mat quality in a wide range of applications.

VISIBILITY AND CONTROL.

All controls are located on a single panel within easy reach of the operator. The sliding control console enhances operator ease of use and visibility to either side of the machine.

VERSATILE SCREED.

The Weiler designed screed delivers outstanding mat quality and a wide paving range. The 3' 10" (1.16 m) front mount screed is hydraulically extendable to 7' (2.13 m) and 9' (2.74 m) with bolt-on extensions.

NARROW DESIGN.

The 46" (1.16 m) track width and 3' 10" (1.16 m) screed allows the P195 to fit within a 4' (1.2 m) cut for a true 4' (1.2 m) paving width. The hopper folds up for an overall machine width of 4' 7" (1397 mm) for simple transport and access to tight working environments.

SMOOTH RIDE.

80" (2032 mm) track length with 64" 1625 mm) of ground contact and 125 mm track chain pitch provides smooth ride and excellent flotation. Automatic track tensioning ensures performance and maximizes component life.

FAST SERVICE.

Remote grease lines, spray down system with 5 gal (19 L) tank and coiled hoses, three engine access doors and Caterpillar dealer service and support keep your machine up and running with limited down time.
